

## SYSTEM CLEANER

Disinfects and maintains sunless tanning equipment. Formulated to breakdown and remove tanning solution and residue from airbrush spray tanning guns and parts.

### 1 REDUCE SOLUTION BUILD-UP

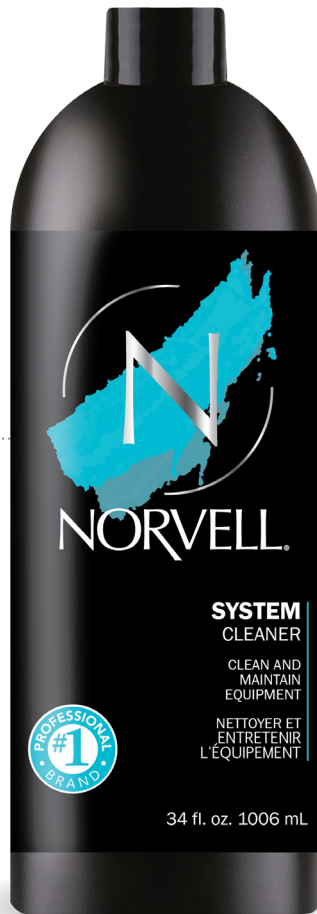

- Spray tanning solution can leave residue that overtime can harden and clog spray tips.

### 2 GREASE INTERNAL GUN MECHANICS

- Keep gun needles and other internal moving parts from sticking or locking-up for optimum equipment function.

### 3 SYSTEM CLEANER

- Cleans the gun interior combating any build-up overtime.

Available size: 34 fl oz  
Norvell Item No: 402317  
Fragrance: Oxygen

Paraben Free · Gluten Free · Non-Comedogenic · Cruelty Free · Sulfate Free · 100% Vegan · Nut Allergy Free

### HOW TO USE

**Handheld units:** Pour 1 oz. of cleaner into spray cup. Shake vigorously to loosen any spray tanning solution. Run cleaner through the airbrush system. Spray onto white paper, until spray is clear. Dip soft cloth in the cleaner and wipe airbrush needle. Remove any residue on the surface of the nozzle. Dry all components off thoroughly after cleaning. Do NOT immerse spray unit into cleaner. Always clean the spray unit when you are finished for the day or whenever equipment may go unused for an extended period of time.

**Autobooth units:** Pour 1 oz. of cleaning into spray cup. Pull solution tubes out of solution container and remove sleeve around tubes. Wipe tubes clean. Take colored tube, put it in cleaner cup. Take clear tube, put into empty cup. Start purge command on touch screen display. Purge until clear tube has cleaner coming through.
