

RENEW EXFOLIATING PREP MITT

Handy is an understatement! The exfoliating **Renew Mitt** is a convenient, fuss-free way to gently exfoliate the skin and balance pH levels prior to a sunless tan application. The elimination of dead skin cells along with the boost of amino acid levels, allows clients to maximize color results.

1 BLEND OF BOTANICALS

- Watermelon to help improve the appearance of skin and reduce redness.
- Cranberry to help combat free radicals and moisturize skin.
- Tomato to help prevent signs of aging and revive the skin's glow.
- This combination of botanicals is a powerful dose of antioxidants that help protect and renew the skin for a long, lasting tan.

2 BUFF & BALANCE

- Immediately prior to a spray tan, client's should buff & balance the skin for great results.
- Quick way for clients to prep their skin to replenish moisturize and balance pH levels to assure the most natural tan.

3 MULTIPURPOSE DESIGN

- No water required.
- Infused with amino acid boosters that magnify sunless and UV color results
- Jump start the DHA reaction
- Remove residual sunless color between sessions

4 ONE MITT FOR EVERYONE

- First time tanners.
- Educated tanners who appreciate quality ingredients and expert performance.
- Gym-goers, ideal for those who can't shower before their spray session.
- Cocktail tanners.
